RESPONSE TO NOTIFICATION OF MISSING REQUIREMENTS

Applicants received the attached Notification of Missing Requirements, dated August 18, 2003, for the above-referenced application. The Notification of Missing Requirements states that the Combined Declaration and Power of Attorney filed with the application on January 11, 2002 does not comply with 37 CFR 1.497 (a) and (b) in that there is an inventor on the declaration that is not identified on any other papers.

Enclosed is a copy of Form PCT/IB/306 (Notification of the Recording of Change), dated April 9, 2002, from parent International Application No. PCT/US00/19039. Form PCT/IB/306 confirms that Ulrich Brinkmann has been recorded as an inventor on the application. Also enclosed is a Letter Regarding Additional Inventor and an Assent of Assignee, which states that the Combined Declaration and Power of Attorney was signed by each of the true inventors. The letter documents that Dr. Brinkmann is correctly identified as an inventor of the above-referenced application, and correctly signed the Combined Declaration and Power of Attorney, which was submitted to the U.S. Patent and Trademark Office (PTO) on January 11, 2002. For the

convenience of the U.S. PTO, an additional copy of the Combined Declaration and Power of Attorney is also enclosed.

Applicants submit that the Combined Declaration and Power of Attorney does comply with 37 CFR 1.497 (a) and (b). Please issue a filing receipt for this application. If any minor matters remain to be discussed prior to examination, please contact the undersigned at the telephone number listed below

Respectfully submitted,

LETTER REGARDING ADDITIONAL INVENTOR

1. Ulrich Brinkmann was not listed as an inventor when PCT Application No. PCT/US00/19039 was filed. However, this inventor was erroneously omitted from the list of inventors, without any deceptive intention on his part. Dr. Brinkman was subsequently added as an inventor to this PCT Application (see the attached Copy of Form PCT/IB/306: Notice of Recording of a Change).

2. Upon entry into national phase, the first filed declaration included was executed by Ulrich Brinkmann, in addition to the other inventors (a copy of the declaration is attached as Exhibit A). Thus, the first-filed declaration submitted in the above-referenced application correctly identifies all the inventors of the above-referenced application. In support of this assertion attached is a written assent of the Assignee (attached as Exhibit B), which states that Ulrich Brinkman should be included as an inventor. The inventive entity was not identified in error on the executed declaration.

3. Applicants believe that there is no requirement to correct inventorship pursuant to 35 U.S.C. § 116, and submit that no petition under 37 C.R.R. § 1.48 is required. In addition, Applicants submit that no surcharge is required for late submission of the Oath or Declaration later than thirty months from the priority. However, as the U.S. Patent Office has indicated that the \$130 fee is due, a check for this amount is submitted herewith. The Director is hereby requested to credit any overpayment (or to charge any additional fees) or to Deposit Account No. 02-4550.

Conclusion

If any minor matters remain to be discussed regarding the identification of the inventors of above-referenced application, the Examiner is invited to contact the undersigned at the telephone number listed below.
